GEORGE W. BUSH ADMINISTRATION

YELLOWSTONE NATIONAL PARK

2003 SNOWMOBILER'S SIGHTSEEING CHECKLIST

ATTENTION PERSONAL SNOWCRAFT ENTHUSIASTS: The all-new, Bush-appointed management of Yellowstone National Park is pleased to once again throw open its gates to the utterly non-offensive, non-polluting equipment which makes your "sport" so legitimate. We hope you enjoy Yellowstone's wintertime splendor, beginning with the attractions below:

POLARIS® "Bison Hot Pursuit Zone"

When chased ragged, these worthless, foul-smelling beasts emit strange and amusing sounds - and foam!

Geyser Flats Freestyle Drag Strip

Savor the beauty of Yellowstone's breathtaking nature and scenery - at speeds of up to 130 miles per hour!

Bald Eagle Appreciation Arena

Watch whole families of America's beloved avian mascot flee in terror through a majestic haze of blue-green 2-stroke engine exhaust!

YAMAHA® Deep Woods Grizzly Sanctuary

Peek in on vicious bears in their secluded native habitat - then kick it into turbo when the claws start swinging!

Hippy Ranger Asphyxiation Hub

Watch whiny, liberal park employees choke on your sled farts, then hack up major environmentalist lung oysters!

Beartooth Pass Off-Road Explosion!

Totally shatter boring woodland silence as you rocket across pristine wilderness on your liquid-cooled snow cock!

Old Faithful Refueling Depot

Don't forget to cruise in and top off with your favorite reasonably-priced brand of high-octane Saudi Arabian sled juice!

ARCTIC CAT® Hot Springs Overlook

Feast your eyes on all kinds of distant, majorly cool nature stuff - all without flexing a single muscle in your ever-expanding, cellulite-covered ass!
